Pools Special Pieces

POOL SOLUTIONS

TIPOLOGÍAS DE PISCINAS
SWIMMING POOL TYPES

SISTEMA DESBORDANTE

OVERFLOW SYSTEM

Este es uno de los sistemas que mayor continuidad consigue y se ha convertido en un diseño de piscina distintivo y visualmente atractivo que permite que el agua desbordante sea recirculada eficientemente a través de las rejillas de drenaje con canaleta que bordean el vaso. Estas piscinas son modernas y elegantes, adaptándose a estilos arquitectónicos contemporáneos y consiguiendo la integración en el entorno.

This is one of the systems that achieves the greatest continuity and has become a distinctive and visually appealing pool design that allows overflowing water to be efficiently recirculated through the gutter drainage grilles that line the pool. These pools are modern and elegant, adapting to contemporary architectural styles and blending into their surroundings.

Crosscut Cloud, Tropic Turqueta

CORONACIÓN CON BORDE DESBORDANTE Y REJILLA DE DRENAJE

Cerámica Mayor ofrece 4 tipos de borde desbordante: Creta, Maui, Bora y Aruba, todos combinables con los 5 tipos de rejillas de drenaje: RJ20, RJ20 FLEX, RJ25, RJ25 FLEX y RJ25 INV.

POOL COPING WITH OVERFLOW EDGE AND DRAIN GRATE

Cerámica Mayor offers 4 types of overflow edge: Creta, Maui, Bora and Aruba, all combinable with the 5 types of drain grates: RJ20, RJ20 FLEX, RJ25, RJ25 FLEX and RJ25 INV.

Stromboli Light

Cements Smoke

SISTEMA INFINITY

INFINITY SYSTEM

Haciendo desaparecer el borde en el horizonte con su efecto "sin fin", las piscinas infinity se distinguen debido a su perfecta integración en el paisaje circundante, creando un efecto visual impresionante. Con un diseño arquitectónico moderno, estas piscinas de gres porcelánico guían el flujo del agua hacia el canal situado en la zona infinity manteniendo la calidad del agua y el constante desbordamiento de esta.

Making the edge disappear into the horizon with their 'endless' effect, infinity pools are distinguished by their perfect integration into the surrounding landscape, creating a stunning visual effect. With a modern architectural design, these porcelain stoneware pools guide the flow of water into the channel located in the infinity zone while maintaining the quality of the water and the constant overflow of the water.

INTERIOR DE LA PISCINA

INSIDE THE SWIMMING POOL

El gres porcelánico es el material perfecto para el revestimiento interior de una piscina por su resistencia, versatilidad y durabilidad. Permite integrar distintas soluciones que añaden valor al proyecto y mejoran la funcionalidad y la estética. Una de estas soluciones técnicas son las medias cañas, que permiten la continuidad visual, el acabado antideslizante, la seguridad y la correcta limpieza en el interior de la piscina.

Porcelain tile is the perfect material for the interior lining of a swimming pool due to its resistance, versatility and durability. It allows the integration of different solutions that add value to the project and improve functionality and aesthetics. One of these technical solutions are trims, which allow for visual continuity, a non-slip finish, safety and proper cleaning inside the pool.

Cupira Marengo

SOLUCIÓN CON MEDIAS CAÑAS PARA EL INTERIOR DEL VASO DE LA PISCINA

Cerámica Mayor ofrece 8 tipos distintos de piezas especiales de media caña para el revestimiento interior de la piscina, evitando así los ángulos rectos y ofreciendo la continuidad deseada en el mismo color que el resto de la piscina.

SOLUTION WITH TRIM FOR THE INSIDE OF THE POOL BASIN

Cerámica Mayor offers 8 different types of special trims for the interior lining of the pool, thus avoiding right angles and offering the desired continuity in the same colour as the rest of the pool.
